- approved Aug. 2026

(purchase of safe chemical storage cabinet)

(ParticipAction Grant – did not apply this year as we did not meet many of the points required)

Notes

As a not-for-profit organization it is important that we manage our savings. If we have too much in reserve, we will not be successful when applying for grants.

Historically we have done well. Since I began recording the grants, starting in 2009 we have received \$219,831.00. An additional \$21,475 has come through a yearly grant from the William & Vera Fisher Family Fund. This brings our total to \$241,306. If we get the EASE grant we will be close to ¼ million dollars!!!

If you have knowledge of any organization that provides grants, please pass along to the Board.

Respectfully submitted

Dave Allen
